

PARTNERING SUCCESS STORY

Situation:

- Request by BIA to attend ADOT surveying classes

Challenges:

- Possible legal issues and funding

Partnering Practices:

- ◆ Proceeded to research solutions in response to our partner's request
- ◆ Checked with our ADOT Training Coordinator, who in turn contact LTAP.
- ◆ LTAP said all they have to do is enroll through LTAP. That website is: www.azltap.org
- ◆ Communicated results of the research to our BIA partners

Outcomes:

- ◆ Classes are available throughout the State. Other classes are available, besides "Surveying," that the BIA and NDOT can attend. Just check the web site for information on classes.
- ◆ BIA now has access to the surveying classes
